Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Bonny Doon Union Elementary School District (District), as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal controls relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *2017-18 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*, issued by the California Education Audit Appeals Panel as regulations. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Bonny Doon Union Elementary School District, as of June 30, 2018, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matters

During fiscal year ended June 30, 2018, the District adopted the provisions of Governmental Accounting Standards Board Statement (GASB) No. 75 *Accounting and Financial Reporting for Postemployment Benefits Other than Pensions*. As a result of the implementation of these standards, the District reported a restatement for the change in accounting principle (see Note 8). Our auditors' opinion was not modified with respect to the restatement.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the required supplementary information schedules as listed in the aforementioned table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated January 25, 2019 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

**Bonny Doon Union Elementary School District
Management's Discussion and Analysis
June 30, 2018**

INTRODUCTION

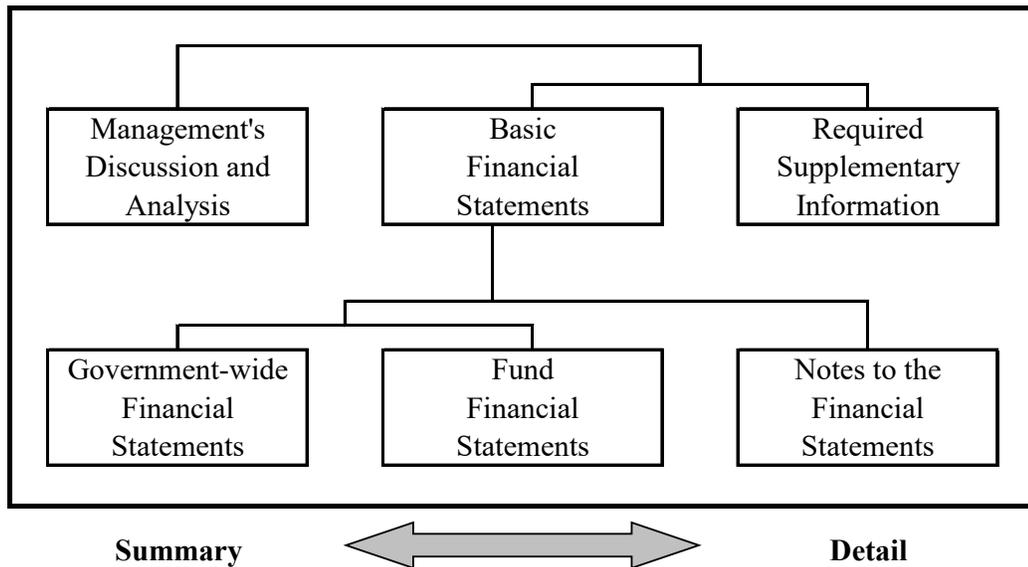

Our discussion and analysis of Bonny Doon Union Elementary School District (District's) financial performance provides an overview of the District's financial activities for the year ended June 30, 2018. It should be read in conjunction with the District's financial statements, which follow this section.

FINANCIAL HIGHLIGHTS

- Total net position was \$1,745,352 at June 30, 2018. This was an decrease of \$139,638 over the prior year's restated net position. The June 30, 2017 long-term liabilities, deferred outflows of resources and net position have been restated in accordance with GASB 75 in the amount of \$50,648 (decrease to net position).
- Overall revenues \$2,178,851, overall expenses were \$2,318,489.

OVERVIEW OF FINANCIAL STATEMENTS

Components of the Financials Section

This annual report consists of three parts – Management’s Discussion and Analysis (this section), the basic financial statements, and required supplementary information. The three sections together provide a comprehensive overview of the District. The basic financial statements are comprised of two kinds of statements that present financial information from different perspectives:

- ❑ **Government-wide financial statements**, which comprise the first two statements, provide both short-term and long-term information about the District’s overall financial position.
- ❑ **Fund financial statements** focus on reporting the individual parts of District operations in more detail. The fund financial statements comprise the remaining statements.
 - **Governmental fund** statements tell how general government services were financed in the short term as well as what remains for future spending.

The financial statements also include notes that explain some of the information in the statements and provide more detailed data. The basic financial statements are followed by a section of required and other supplementary information that further explain and support the financial statements.

Government-Wide Statements

The government-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the government’s assets and liabilities. All of the current year’s revenues and expenses are accounted for in the statement of activities, regardless of when cash is received or paid.

The two government-wide statements report the District’s net position and how they have changed. Net position, the difference between assets and liabilities, is one way to measure the District’s financial health or position.

- Over time, increases or decreases in the District’s net position is an indicator of whether its financial health is improving or deteriorating, respectively. The net position of the District has decreased by 7% in the past year. The District had an increase in revenue and a decrease in expenses from the prior year which created a lower deficit, but the restatement in Other Postemployment Benefits (OPEB) pension liability from the prior year and the increase in STRS and PERS retirement current liability decreased net position.
- To assess the overall health of the District, one needs to consider additional non-financial factors such as changes in enrollment, changes in the property tax base, and changes in program funding by the Federal and State governments, and condition of facilities. The District’s average daily attendance has increased by 4.02 ADA in the past year. The District had unexpected repair costs to their bus \$20,000; needed to fund a new State Water project \$30,000 and incurred Special Ed costs with a decrease in Special Ed Revenue. The District also settled on a 3% COLA which was 1% higher than the July 1st budget.

The government-wide statements of the District include all governmental activities. All of the District's basic services are included here, such as regular education, food service, maintenance and general administration. Revenue limit funding and federal and state grants finance most of these activities.

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

Fund Financial Statements

The fund financial statements provide more detailed information about the District's most significant governmental funds, not the District as a whole. Funds are accounting devices that the District uses to keep track of specific sources of funding and spending for particular programs.

- Some funds are required to be established by State law and by bond covenants.
- The governing board establishes other funds to control and manage money for particular purposes or to show that the District is meeting legal responsibilities for using certain revenues.

The District has one type of fund:

- Governmental funds – All of the District's basic services are included in governmental funds, which generally focus on: (1) how cash and other financial assets that can readily be converted to cash flow in and out, and (2) the balances left at year-end that are available for spending. Consequently, the governmental funds' statements provide a detailed short-term view that helps determine whether there are more or fewer financial resources than previously to finance the District's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, we provide additional information following the governmental funds' statements that explains the relationship (or differences) between them.

The financial performance of the District is reflected in its governmental funds as well. As the District completed the year, its governmental funds reported a combined fund balance of \$2,052,262 as compared to the prior year's ending fund balance of \$2,151,781.

Fund Balance Comparison

The District currently maintains the following funds:

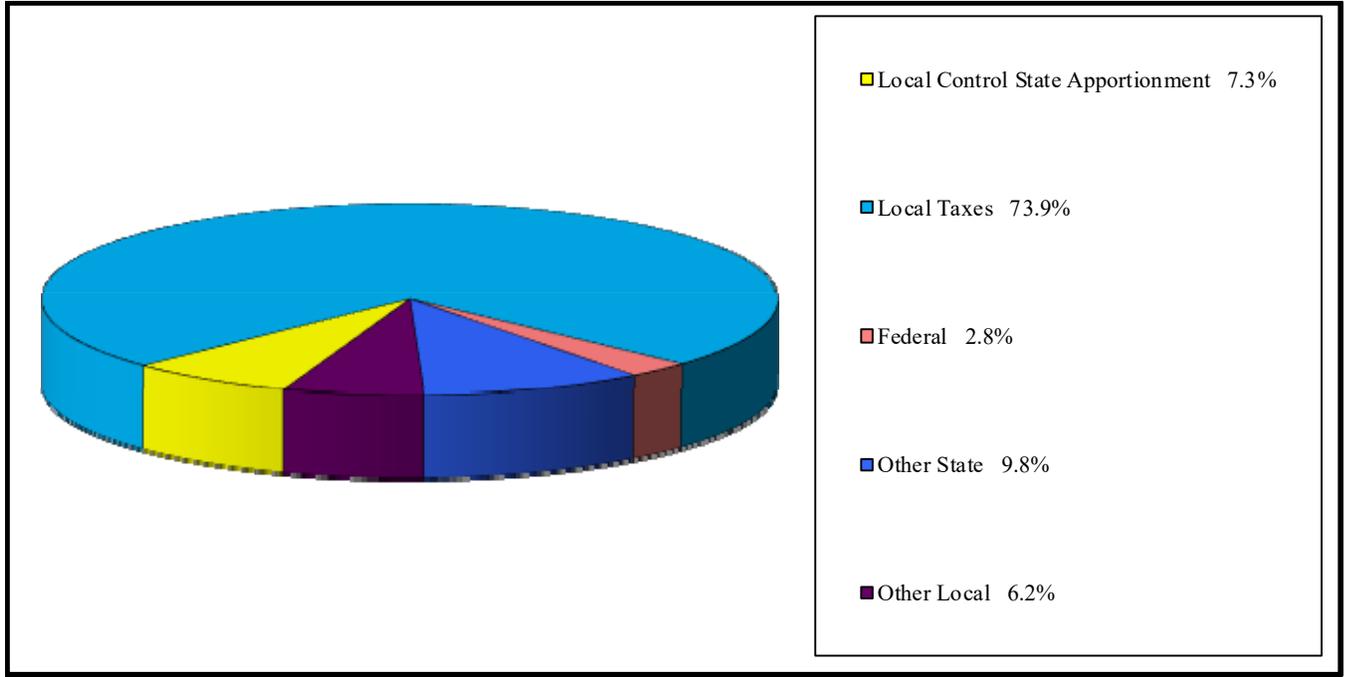

FUNDS	Ending Fund Balance		Net Change
	2018	2017	
Governmental:			
General	\$ 1,982,927	\$ 2,037,292	\$ (54,365)

TOTAL FUNDS	\$ 2,052,262	\$ 2,151,781	\$ (99,519)

General Fund

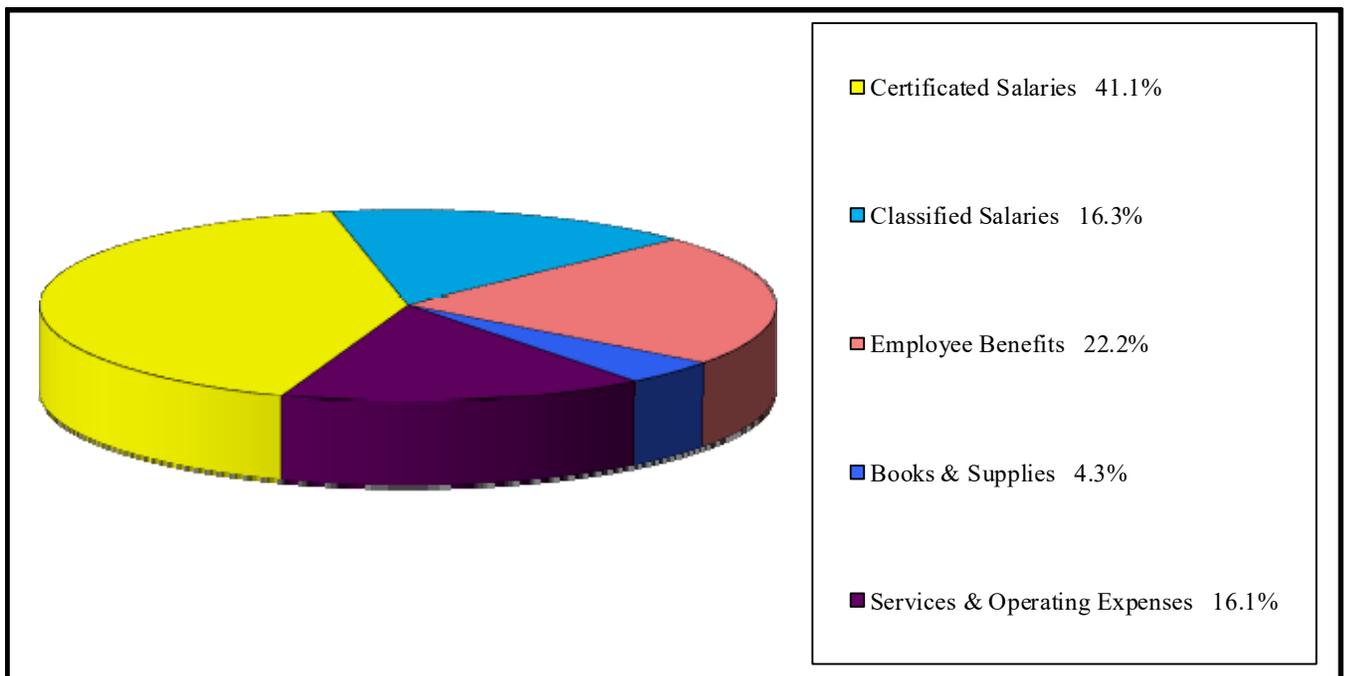

The decrease in fund balance was primarily due to high Special Education costs and a decrease in AB602 revenue; unexpected bus repairs and funding the new State Water Project in Fund 14 which used LCFF funding transferred from Fund 01.

The following charts graphically depict revenues and expenditures, both by major object as well as by function.

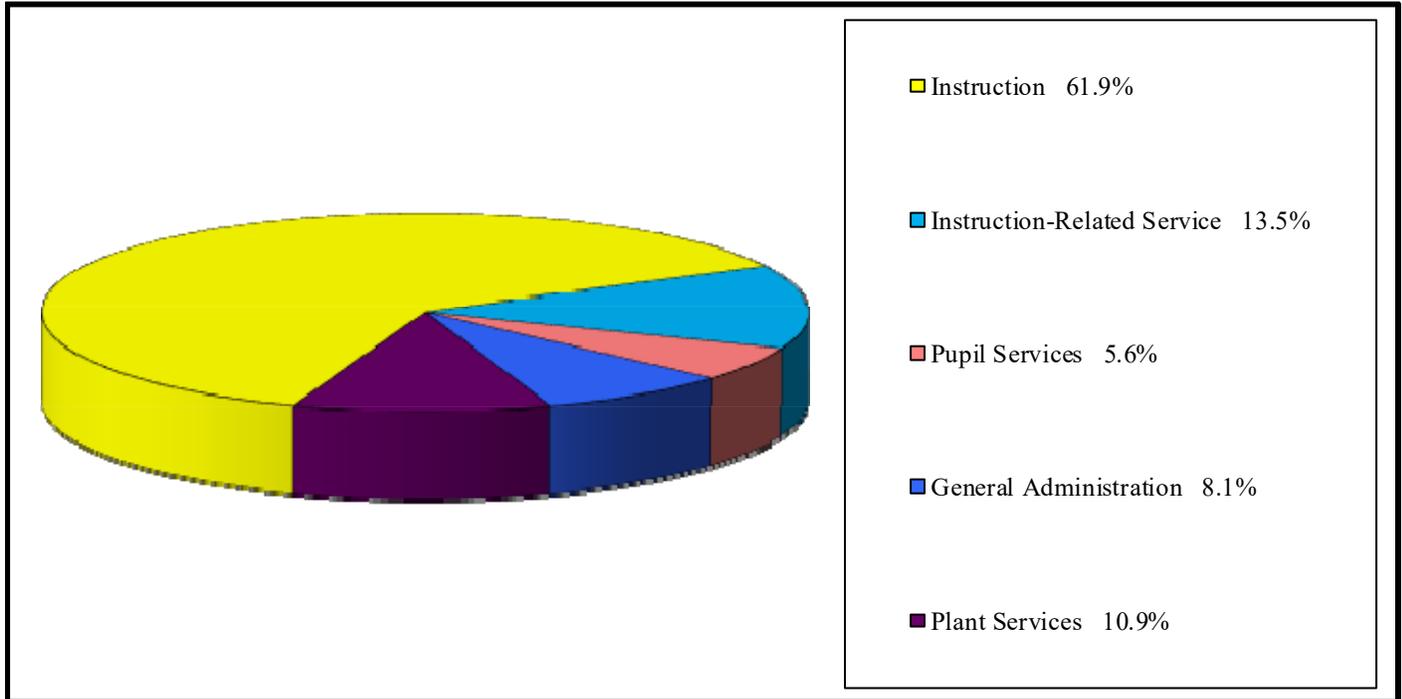

2017/2018 General Fund Revenues

2017/2018 General Fund Expenditures by Object

2017/2018 General Fund Expenditures by Function

Other Governmental Funds

Other governmental funds had the following activity and changes for the year ended June 30, 2018:

The Child Development Fund is the after school program which is supported by parent fees. The successful program expanded activities with additional personnel and experienced an increase in fund balance.

The Deferred Maintenance Fund is being funded with LCFF dollars to pay for future facility maintenance projects. During the 2017/18 year, a new state water project was started. The District transferred an additional \$30k in LCFF funds. The reimbursement from the state is anticipated to happen during the next few years.

The Student Body Fund had no significant change.

The Capital Facilities Fund had received revenue from the collection of Developer Fees. The District spent funds for the Bond Application fees.

The Bond Interest and Redemption Fund was maintained by the Santa Cruz County Treasurer. The final interest/fees were transferred to Fund 01. The ending 17/18 balance was zero.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

At June 30, 2018, the District had \$1,456,361 invested, net of accumulated depreciation, in capital assets. There were no changes in the District's investment in the capital assets other than the accumulation of current year depreciation in the amount of \$84,319.

	Governmental Activities		Net Change
	2018	2017	
CAPITAL ASSETS			
Land Improvements	\$ 492,956	\$ 492,956	\$ -

Long-Term Debt

At June 30, 2018, the District had \$2,083,311 in long-term debt.

The Other Postemployment Benefits (OPEB) balance from the prior year was restated based on the new Actuarial report done in conformity with GASB 75. The restatement increased the liability from the prior year and the current year's estimate reduced the Net OPEB obligation. Also, the District must include the amount of unfunded STRS/PERS liability with the State of California as dictated in GASB 68. Currently the District's Net Pension Liability is \$1,828,927 which is a \$319,381 increase from the prior year.

	Governmental Activities		Net Change
	2018	2017	
LONG-TERM DEBT			
Net Pension Liability	\$ 1,828,515	\$ 1,509,134	\$ 319,381

TOTAL LONG-TERM DEBT	<u>\$ 2,083,311</u>	<u>\$ 1,774,481</u>	<u>\$ 308,830</u>

The June 30, 2017 net pension liability has been restated.

GENERAL FUND BUDGETARY HIGHLIGHTS

The difference in the original versus final budget amounts and actual versus budget amounts is primarily due to the following:

- ❑ The July 1st budget was developed using a 2% COLA for all positions, the actual COLA was 3%.
- ❑ The final budget used P-2 Local Tax revenue, the final actual revenue received was \$16,104 higher.
- ❑ The final budget did not include the unexpected Bus Repairs costs; legal fees or counseling paid during the year.
- ❑ The final budget for Prop. 39 Energy Grant didn't include the 1718 revenue \$35,466 received.

Over the course of the year, the District revises its annual budget to reflect unexpected changes in revenues and expenditures. The final amendment to the budget was approved June 21, 2018. A schedule of the District's General Fund original and final budget amounts compared with actual revenues and expenditures is provided with the basic financial statements in the audited financial report.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

At the time these financial statements were prepared and audited, the District was aware of several circumstances that could affect its future financial health:

- ❑ The July 1st budget used an estimate on the new District Superintendent contract and reduced staffing for certificated staff.
- ❑ The 2018/19 P-1 Local Tax revenue was higher than projected at the July 1st budget.
- ❑ The Solar Energy rental contract payoff was not included in the July 1st budget

BONNY DOON UNION ELEMENTARY SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2018

NOTE 1. SIGNIFICANT ACCOUNTING POLICIES

A. General Statement

The Bonny Doon Union Elementary School District is a public educational agency operating under the applicable laws and regulations of the State of California. It is governed by a five-member Board of Trustees (Board) elected by registered voters of the District, which comprises an area in Santa Cruz County. The District was established in 1947 and serves students in kindergarten through sixth grade.

B. Accounting Policies

The District prepares its basic financial statements in conformity with generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board (GASB) and the American Institute of Certified Public Accountants (AICPA) and complies with the policies and procedures of the Department of Education's *California School Accounting Manual*.

C. Reporting Entity

The Board is elected by the public and it has the authority to make decisions, appoint administrators and managers, and significantly influence operations. It also has the primary accountability for fiscal matters. The District is therefore a financial reporting entity as defined by the GASB in its Statement No. 14, *The Financial Reporting Entity*, as amended by GASB 39, *Determining Whether Certain Organizations Are Component Units*.

The District has reviewed criteria to determine whether other entities with activities that benefit the District should be included within its financial reporting entity. The criteria include, but are not limited to: whether the District exercises oversight responsibility (which includes financial interdependency, selection of governing authority, designation of management, ability to significantly influence operations, and accountability for fiscal matters), the scope of public service, and a special financing relationship.

The District has determined that no outside entity meets the above criteria, and therefore, no agency has been included as a component unit in the District's general-purpose financial statements. In addition, the District is not aware of any entity that would exercise such oversight responsibility that would result in the District being considered a component unit of that entity.

D. Implemented Changes in Accounting Principles

Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pension*.

In June 2015, the GASB issued Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pension*. The primary objective of this Statement is to improve accounting and financial reporting by state and local governments for postemployment benefits other than pensions (other postemployment benefits or OPEB). It also improves information provided by state and local governmental employers about financial support for OPEB that is provided by other entities. This Statement results from a comprehensive review of the effectiveness of existing standards of accounting and financial reporting for all postemployment benefits (pensions and OPEB) with regard to providing decision-useful information, supporting assessments of accountability and inter-period equity, and creating additional transparency.

This Statement replaces the requirements of Statements No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*, as amended, and No. 57, *OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans*, for OPEB. Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*, establishes new accounting and financial reporting requirements for OPEB plans.

The requirements of these Statement are effective for financial statements for periods beginning after June 15, 2017. The District implemented these Statements to its financial statements for the year ending June 30, 2018, effective July 1, 2017. As a result of this implementation, the District restated beginning net position for governmental activities as noted below in Note 7.

E. Governmental Accounting Standards Board Statements Issued, Not Yet Effective

The Governmental Accounting Standards Board (GASB) has issued pronouncements prior to June 30, 2018, that have effective dates that may impact future financial presentations; however, the impact of the implementation of each of the statements below to the District's financial statements has not been assessed at this time.

Statement No. 83, *Certain Asset Retirement Obligations*

In November 2016, the GASB issued Statement No. 83, *Certain Asset Retirement Obligations*. This Statement addresses accounting and financial reporting for certain asset retirement obligations (ARO's), which is a legally enforceable liability associated with the retirement of a tangible capital asset.

This Statement is effective for periods beginning after June 15, 2018.

Statement No. 84, *Fiduciary Activities*

In January 2017, the GASB issued Statement No. 84, *Fiduciary Activities*. This Statement is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported.

This Statement is effective for reporting periods beginning after December 15, 2018.

NOTE 1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Statement No. 87, *Leases*

In June 2017, the GASB issued Statement No. 87, *Leases*. This Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments.

The requirements of this Statement are effective for reporting periods beginning after December 15, 2019.

Statement No. 88, *Certain Disclosures Related to Debt including Direct Borrowings and Direct Placements*

In April 2018, the GASB issued Statement No. 88, *Certain Disclosures Related to Debt including Direct Borrowings and Direct Placements*. The primary objective of this Statement is to improve the information that is disclosed in notes to government financial statements related to debt, including direct borrowings and direct placements. It also clarifies which liabilities governments should include when disclosing information related to debt.

The requirements of this Statement are effective for reporting periods beginning after June 15, 2018. Earlier application is encouraged.

Statement No. 89, *Accounting for Interest Cost Incurred before the End of a Construction Period*

In June of 2018, the GASB issued Statement No. 89, *Accounting for Interest Cost Incurred before the End of a Construction Period*. The objectives of this Statement are (1) to enhance the relevance and comparability of information about capital assets and the cost of borrowing for a reporting period and (2) to simplify accounting for interest cost incurred before the end of a construction period.

The requirements of this Statement are effective for reporting periods beginning after December 15, 2019. Earlier application is encouraged.

Statement No. 90, *Majority Equity Interests—an amendment of GASB Statements No. 14 and No. 61*

In August 2018, the GASB issued Statement No. 90, *Majority Equity Interests—an amendment of GASB Statements No. 14 and No. 61*. The primary objectives of this Statement are to improve the consistency and comparability of reporting a government's majority equity interest in a legally separate organization and to improve the relevance of financial statement information for certain component units.

The requirements of this Statement are effective for reporting periods beginning after December 15, 2018. Earlier application is encouraged. The requirements should be applied retroactively, except for the provisions related to (1) reporting a majority equity interest in a component unit and (2) reporting a component unit if the government acquires a 100 percent equity interest. Those provisions should be applied on a prospective basis.

The District will analyze the impact of these new Statements prior to the effective dates listed above.

The provisions of these Statements generally are required to be applied retroactively for all periods presented. Early application, if allowable, was not adopted.

NOTE 1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

F. Basis of Presentation

1. Government-Wide Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the District and its component units. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The government-wide statement of activities presents a comparison between direct expenses and program revenues for each function or program of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program, or department and are therefore clearly identifiable to a particular function. The District does not allocate indirect expenses to functions in the statement of activities. Program revenues include charges paid by the recipients of goods or services offered by a program, as well as grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues which are not classified as program revenues are presented as general revenues of the District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the District.

2. Fund Financial Statements

The financial transactions of the District are reported in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprises its assets, liabilities, reserves, fund equity, revenues and expenditures or expenses, as appropriate.

The emphasis in fund financial statements is on the major funds in the governmental activities categories. Non-major funds by category are summarized in to a single column. GASB Statement No. 34 sets forth minimum criteria (percentage of the assets, liabilities, revenues or expenditures/expenses of either fund category or the governmental and enterprise funds combined) for the determination of major funds. The non-major funds are combined in a column in the fund financial statements.

The District's accounts are organized into major and non-major governmental funds as follows:

a. Major Governmental Funds

The *General Fund* is the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund.

BONNY DOON UNION ELEMENTARY SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2018

NOTE 1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

b. Non-major Governmental Funds

Special Revenue Funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specific purposes. The District maintains the following non-major special revenue funds:

The *Child Development Fund* is used to account for resources committed to child development programs maintained by the District.

The *Deferred Maintenance Fund* is used for the purpose of major repair or replacement of the District's facilities.

The *Student Body Fund* is used to account for the proceeds of Board approved student activities and student body approved expenditures.

Capital Projects Funds are used to account for the acquisition and construction of all major governmental capital assets. The District maintains the following non-major capital projects fund:

The *Capital Facilities Fund* is used to account for resources received from developer impact fees assessed under provisions of the California Environmental Quality Act (CEQA).

Debt Service Funds are used to account for the accumulation of resources for, and the debt service payments related to, the District's debt issuances. The District maintains the following non-major debt service fund:

The *Bond Interest and Redemption Fund* is maintained by the County Treasurer and is used to account for both the accumulation of resources from ad valorem tax levies and the interest payments and redemption of principal of the District's general obligation bond issuance as discussed later in the Notes to Financial Statements.

NOTE 1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

G. Basis of Accounting

Basis of accounting refers to when transactions are recorded in the financial records and reported in the financial statements. The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting.

Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting.

1. Revenues - Exchange and Non-exchange Transactions

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded under the accrual basis when the exchange takes place. Under the modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. "Available" means the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, "available" means collectable within the current period or with 45, 60, 90 days after year-end, depending on the revenue source. However, to achieve comparability of reporting among California Districts and so as not to distort normal revenue patterns, with specific respect to reimbursement grants and corrections to state aid apportionments, the California Department of Education has defined available as collectible within one year.

Non-exchange transactions are those in which the District receives value without directly giving equal value in return, include property taxes, grants, and entitlements. Under the accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants and entitlements is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are to be used or the fiscal year when use is first permitted; matching requirements, in which the District must provide local resources to be used for a specific purpose; and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. Under the modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

2. Unearned Revenue

Unearned revenue arises when assets are received before revenue recognition criteria have been satisfied. Grants and entitlements received before eligibility requirements are met are recorded as unearned revenue. On governmental fund financial statements, receivables associated with non-exchange transactions that will not be collected within the availability period have also been recorded as unearned revenue.

BONNY DOON UNION ELEMENTARY SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2018

NOTE 1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

3. Expenses/Expenditures

Under the accrual basis of accounting, expenses are recognized at the time they are incurred. However, the measurement focus of governmental fund accounting is on decreases in the net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized on governmental fund financial statements.

H. Budgets and Budgetary Accounting

Annual budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America for all governmental funds. By state law, the District's governing board must adopt a final budget no later than July 1. A public hearing must be conducted to receive comments prior to adoption. The District's governing board satisfied these requirements.

These budgets are revised by the District's governing board and District superintendent during the year to give consideration to unanticipated revenue and expenditures. The original and final revised budgets for the General Fund are presented as required supplementary information in these financial statements.

Formal budgetary integration was employed as a management control device during the year for all budgeted funds. The District employs budget control by minor object and by individual appropriation accounts. Expenditures cannot legally exceed appropriations by major object account.

I. Encumbrances

Encumbrance accounting is used in all budgeted funds to reserve portions of applicable appropriations for which commitments have been made. Encumbrances are recorded for purchase orders, contracts, and other commitments when they are written. Encumbrances are liquidated when the commitments are paid. All encumbrances are liquidated on June 30.

J. Assets, Liabilities, and Equity

1. Cash and Equivalents

The District considers all highly liquid investments with a maturity of three months or less at the time of purchase to be cash equivalents.

2. Receivables

Accounts receivable in governmental fund types consist primarily of receivables from federal, state and local governments for various programs.

3. Prepaid Expenditures

The District has the option of reporting expenditures for prepaid items in governmental funds either when paid or during the benefiting period. The District has chosen to report the expenditure when paid, and therefore, no asset is reported.

BONNY DOON UNION ELEMENTARY SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2018

NOTE 1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

4. Capital Assets

Capital assets are those purchased or acquired with an original cost of \$20,000 or more and are reported at historical cost or estimated historical cost. Contributed assets are reported at fair market value as of the date received. Additions, improvements, and other capital outlays that significantly extend the useful life of an asset are capitalized. The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend the asset's lives are not capitalized but are expensed as incurred. Depreciation on all capital assets is computed using a straight-line basis and an annual convention over the following estimated useful lives:

Land improvements	15 - 20
Buildings and improvements	20 - 50
Vehicles	20

5. Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements. In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds. The District reports long-term obligations of governmental funds at face value in the government-wide financial statements.

6. Pensions

For purposes of measuring the net pension liability and deferred outflows/inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the California State Teachers' Retirement System (CalSTRS) and the California Public Employees' Retirement System (CalPERS) plan for schools (Plans) and additions to/deductions from the Plans' fiduciary net position have been determined on the same basis as they are reported by CalSTRS and CalPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Generally accepted accounting principles require that the reported results must pertain to liability and asset information within certain defined timeframes. For this report, the following time frames are used:

Valuation Date	June 30, 2016
Measurement Date	June 30, 2017
Measurement Period	July 1, 2016 to June 30, 2017

BONNY DOON UNION ELEMENTARY SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2018

NOTE 1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

7. Other Postemployment Benefits

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about fiduciary net position of the District's plan (OPEB Plan) and additions to/deductions from the OPEB Plan's fiduciary net position have been determined on the same basis as they are reported by the OPEB Plan. For this purpose, benefit payments are recognized when currently due and payable in accordance with the benefit terms.

Generally accepted accounting principles require that the reported results must pertain to liability and asset information within certain defined timeframes. For this report, the following time frames are used:

Valuation Date	June 30, 2018
Measurement Date	June 30, 2018
Measurement Period	July 1, 2017 to June 30, 2018

8. Compensated Absences

Accumulated sick leave benefits are not recognized as liabilities of the District. The District's policy is to record sick leave as an operating expense in the period taken, since such benefits do not vest, nor is payment probable; however, unused sick leave is added to the creditable service period for calculation of retirement benefits when the employee retires.

9. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position or fund balance that applies to a future period(s) and thus, will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position or fund balance that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

NOTE 1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

10. Fund Balance Classifications

The governmental fund financial statements present fund balances based on a classification hierarchy that depicts the extent to which the District is bound by spending constraints imposed on the use of its resources. The classifications used in the governmental fund financial statements are as follows:

a. Nonspendable Fund Balance

The nonspendable fund balance classification reflects amounts that are not in spendable form. Examples include inventory and prepaid items. This classification also reflects amounts that are in spendable form but that are legally or contractually required to remain intact.

b. Restricted Fund Balance

The restricted fund balance classification reflects amounts subject to externally imposed and legally enforceable constraints. Such constraints may be imposed by creditors, grantors, contributors, or laws or regulations of other governments, or may be imposed by law through constitutional provisions or enabling legislation. These are the same restrictions used to determine restricted net position as reported in the government-wide statements.

c. Committed Fund Balance

The committed fund balance classification reflects amounts subject to internal constraints self-imposed by formal action of the highest level of decision-making authority. The governing board is the highest level of decision-making authority for the District. Commitments may be established, modified, or rescinded only through resolutions or other action as approved by the governing board.

d. Assigned Fund Balance

The assigned fund balance classification reflects amounts that the District intends to be used for specific purposes. Assignments may be established either by the Board of Trustees or by a designee of the Board of Trustees and are subject to neither the restricted nor committed levels of constraint.

Constraints giving rise to assigned fund balance are not required to be imposed, modified, or removed by formal action of the highest level of decision-making authority. The action may be delegated to another body or official.

e. Unassigned Fund Balance and Minimum Fund Balance Policy

In the General Fund only, the unassigned fund balance classification reflects the residual balance that has not been assigned to other funds and that is not restricted, committed, or assigned to specific purposes.

BONNY DOON UNION ELEMENTARY SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2018

NOTE 1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

The Reserve for Economic Uncertainties maintained by the District pursuant to the Criteria and Standards for fiscal solvency adopted by the State Board of Education is a stabilization-like arrangement of the "minimum fund balance policy" type. The Reserve for Economic Uncertainties does not meet the criteria to be reported as either restricted or committed because it is not an externally enforceable legal requirement, and because even where the Reserve for Economic Uncertainties is established by formal action of the District's highest level of decision-making authority, the circumstances in which the Reserve for Economic Uncertainties might be spent are by their nature neither specific nor non-routine. For this reason, the Reserve for Economic Uncertainties is reported as unassigned fund balance.

The District is committed to maintaining a prudent level of financial resources to protect against the need to reduce service levels because of temporary revenue shortfalls or unpredicted expenditures. The District's Minimum Fund Balance Policy requires a Reserve for Economic Uncertainties, consisting of unassigned amounts, equal to no less than 10% of the General Fund annual operating expenditures.

The District's policy regarding the order in which spendable fund balances are spent when more than one classification is available for a specific purpose is that they are spent in restricted, committed, assigned, and then unassigned order.

11. Local Control Funding Formula / Property Taxes

The District's local control funding formula revenue is received from a combination of local property taxes, state apportionments, and other local sources.

The county is responsible for assessing, collecting, and apportioning property taxes. Taxes are levied for each fiscal year on taxable real and personal property in the county. The levy is based on the assessed values as of the preceding January 1, which is also the lien date. Property taxes on the secured roll are due on November 1 and February 1, and taxes become delinquent after December 10 and April 10, respectively. Property taxes on the unsecured roll are due on the lien date (January 1), and become delinquent if unpaid by August 31.

Secured property taxes are recorded as revenue when apportioned, in the fiscal year of the levy. The county apportions secured property tax revenue in accordance with the alternate method of distribution prescribed by Section 4705 of the California Revenue and Taxation Code. This alternate method provides for crediting each applicable fund with its total secured taxes upon completion of the secured tax roll - approximately October 1 of each year.

The County Auditor reports the amount of the District's allocated property tax revenue to the California Department of Education. Property taxes are recorded as local control funding formula sources by the District.

The California Department of Education reduces the District's entitlement by the District local property tax revenue. The balance is paid from the state General Fund, and is known as the State Apportionment.

The District's Base Local Control Funding Formula Revenue is the amount of general-purpose tax revenue, per average daily attendance (ADA), that the District is entitled to by law. This amount is multiplied by the second period ADA to derive the District's total entitlement.

NOTE 1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

K. Investment Valuation

The District categorizes the fair value measurements of its investments based on the hierarchy established by generally accepted accounting principles. The fair value hierarchy, which has three levels, is based on the valuation inputs used to measure an asset's fair value: Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

Cash in County Treasury pools are measured at fair value using level 1 inputs. Fair market value adjustments have not been recorded as they are determined immaterial to the District.

L. Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenditures during the reporting period. Actual amounts could differ from those estimates.

NOTE 2. CASH AND EQUIVALENTS

Cash and equivalents at June 30, 2018 are classified in the accompanying financial statements as follows:

	Governmental Activities
Cash and Equivalents	
Pooled Funds:	
Cash in county treasury	\$ 2,113,999
Deposits:	
Cash on hand and in banks	1,568
Cash in revolving fund	1,000
Cash with fiscal agent	1,297
Total Cash and Equivalents	\$ 2,117,864

A. Cash in County Treasury

In accordance with *Education Code* 41001, the District maintains substantially all of its cash in the Santa Cruz County Treasury (the Treasury). The Treasury pools these funds with those of other districts in the County and invests the cash. The share of each fund in the pooled cash account is separately accounted for and interest earned is apportioned quarterly to funds that are legally required to receive interest based on the relationship of a fund's daily balance to the total of pooled cash and investments.

NOTE 2. CASH AND EQUIVALENTS (Continued)

Participants' equity in the investment pool is determined by the dollar amount of the participant deposits, adjusted for withdrawals and distributed income. This method differs from the fair value method used to value investments in these financial statements in that unrealized gains or losses are not distributed to pool participants.

The Treasury is authorized to deposit cash and invest excess funds by *California Government Code* Section 53648 et seq. The funds maintained by the Treasury are either secured by federal depository insurance or are collateralized.

The Treasury is restricted by *Government Code* Section 53635, pursuant to Section 53601, to invest in time deposits; U.S. government securities; state registered warrants, notes or bonds; the State Treasurer's investment pool; bankers' acceptances; commercial paper; negotiable certificates of deposit; and repurchase or reverse repurchase agreements.

B. Investments Authorized by the District's Investment Policy

The table below identifies the investment types authorized for the District by the *California Government Code* Section 53601. This table also identifies certain provisions of the *California Government Code* that address interest rate risk, credit risk, and concentration of credit risk.

C. Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair values to changes in market interest rates. As of June 30, 2018, the weighted average maturity of the investments contained in the Treasury investment pool was 194 days.

D. Credit Risk

Generally, credit risk, is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The County Treasury investment pool does not have a rating provided by a nationally recognized statistical rating organization.

E. Custodial Credit Risk – Deposits

This is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District does not have a formal policy for custodial credit risk for deposits.

Cash balances in banks and revolving funds are insured up to \$250,000 by the Federal Deposit Insurance Corporation (FDIC). As of June 30, 2018, the District's bank balances were fully insured.

F. Custodial Credit Risk – Investments

This is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in possession of an outside party. The *California Government Code* and the District's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for investments.

NOTE 3. INTERFUND TRANSACTIONS

Interfund transactions are reported as either loans, services provided, reimbursements, or transfers. Loans are reported as interfund receivables and payables, as appropriate, and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures/expenses. Reimbursements occur when one fund incurs a cost, charges the appropriate benefiting fund, and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers among governmental funds are netted as part of the reconciliation to the government wide financial statements.

NOTE 5. PENSION PLANS

Qualified employees are covered under multiple-employer defined benefit pension plans maintained by agencies of the State of California. Certificated employees are members of the California State Teachers' Retirement System (CalSTRS), and classified employees are members of the California Public Employees' Retirement System (CalPERS).

A. California State Teachers' Retirement System

1. Plan Description and Provisions

The District contributes to CalSTRS, a cost-sharing multiple-employer public employee retirement system defined benefit pension plan administered by CalSTRS, which acts as a common investment and administrative agent for its participating member employers. Benefit provisions are established by state statutes, as legislatively amended, within the State Teachers' Retirement Law. CalSTRS issues publicly available reports that include a full description of the pension plans regarding benefit provisions, assumptions and membership information that can be found on the CalSTRS website.

2. Benefits Provided

The plan provides retirement, disability, and survivor benefits to beneficiaries. Beneficiaries of a retired member who elected an option receive a continuing lifetime benefit upon the member's death.

The Plans' provisions and benefits in effect at June 30, 2018, are summarized as follows:

Hire Date	<u>After January 1, 2013</u>	<u>On Or Before December 31, 2012</u>

3. Contributions

Active plan members are required to contribute 9.21% of their salary and the District is required to contribute an actuarially determined rate. The actuarial methods and assumptions used for determining the rate are those adopted by the CalSTRS Teachers' Retirement Board.

For the year ended June 30, 2018, the contributions recognized as part of pension expense for the Plan were as follows:

Contributions - employer	\$	97,365
--------------------------	----	--------

4. Discount Rate

The discount rate used to measure the total pension liability was 7.10 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and employers will be made at statutory contribution rates in accordance with the rate increase per Assembly Bill 1469. Projected inflows from investment earnings were calculated using the long-term assumed investment rate of return (7.10 percent) and assuming that contributions, benefit payments, and administrative expense occur midyear. Based on those assumptions, the State Teachers Retirement Plan's (STRP) fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term assumed investment rate of return was applied to all periods of projected benefit payments to determine the total pension liability.

BONNY DOON UNION ELEMENTARY SCHOOL DISTRICT
 NOTES TO FINANCIAL STATEMENTS

NOTE 5. PENSION PLANS (Continued)

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. The best-estimate ranges were developed using capital market assumptions from CalSTRS general investment consultant (Pension Consulting Alliance - PCA) as an input to the process. Based on the model from CalSTRS consulting actuary's (Milliman) investment practice, a best estimate range was determined by assuming the portfolio is re-balanced annually and that annual returns are lognormally distributed and independent from year to year to develop expected percentiles for the long-term distribution of annualized returns. The assumed asset allocation by PCA is based on board policy for target asset allocation in effect on February 2, 2012, the date the current experience study was approved by the board. Best estimates of 10-year geometric real rates of return and the assumed asset allocation for each major asset class used as input to develop the actuarial investment rate of return are summarized in the following table:

	<u>Asset Allocation</u>	<u>Long-Term Expected Real Rate of Return (20-year average)</u>
Global Equity	47.00%	6.30%
Private Equity	13.00%	9.30%
Real Estate	13.00%	5.20%

Absolute Return	9.00%	2.90%
Fixed Income	12.00%	0.30%
Liquidity (Cash)	2.00%	-1.00%
Total	<u>100%</u>	

5. On Behalf Payment

The State of California makes contributions to STRS on behalf of the District. Under accounting principles generally accepted in the United States of America, these amounts have been recorded as revenue in the government-wide financial statements. For the year ended June 30, 2018 the District has recorded \$63,568 of State on behalf payments as revenue.

B. California Public Employees' Retirement System

1. Plan Description and Provisions

The District contributes to the School Employer Pool under the CalPERS, a cost-sharing multiple-employer public employee retirement system defined benefit pension plan administered by CalPERS, which acts as a common investment and administrative agent for its participating member employers. Benefit provisions are established by State statutes, as legislatively amended, within the Public Employees' Retirement Law. CalPERS issues publicly available reports that include a full description of the pension plans regarding benefit provisions, assumptions and membership information that can be found on the CalPERS website.

2. Benefits Provided

The plan provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefit provisions are established by State statutes, as legislatively amended, within the Public Employees' Retirement Law. Benefits are based on years of credited service, equal to one year of full time employment. Members with five years of total service are eligible to retire at age 50 with statutorily reduced benefits. All members are eligible for non-duty disability benefits after 10 years of service.

The Plans' provisions and benefits in effect at June 30, 2018, are summarized as follows:

Hire Date	<u>After January 1, 2013</u>	<u>On Or Before December 31, 2012</u>

3. Contributions

Active plan members are required to contribute 6.00% of their salary and the District is required to contribute an actuarially determined rate. The actuarial methods and assumptions used for determining the rate are those adopted by the CalPERS Board of Administration.

For the year ended June 30, 2018, the contributions recognized as part of pension expense for the Plan were as follows:

Contributions - employer	\$	37,116
--------------------------	----	--------

4. Discount Rate

The discount rate used to measure the total pension liability was 7.15 percent. A projection of the expected benefit payments and contributions was performed to determine if assets would run out. The test revealed the assets would not run out. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability for the Schools Pool. The results of the crossover testing for the Schools Pool are presented in a detailed report that can be obtained at CalPERS' website.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

 NOTES TO FINANCIAL STATEMENTS
 JUNE 30, 2018

NOTE 5. PENSION PLANS (Continued)

In determining the long-term expected rate of return, staff took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Such cash flows were developed assuming that both members and employers will make their required contributions on time and as scheduled in all future years. Using historical returns of all the funds' asset classes, expected compound (geometric) returns were calculated over the short-term (first 10 years) and the long-term (11-60 years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equivalent to the single equivalent rate calculated above and rounded down to the nearest one quarter of one percent.

The table below reflects long-term expected real rate of return by asset class. The rate of return was calculated using the capital market assumptions applied to determine the discount rate and asset allocation. These geometric rates of return are net of administrative expenses.

	Asset Allocation	Real Return Years 1 - 10 (a)	Real Return Years 11+ (b)
Global Entity	47.00%	4.90%	5.38%

CalSTRS	\$	1,324,802
CalPERS		<u>503,713</u>
Total District net pension liability		1,828,515
State's proportionate share of the CalSTRS net pension liability associated with the District		<u>783,742</u>
Total	\$	<u><u>2,612,257</u></u>

The District's net pension liability for each Plan is measured as the proportionate share of the net pension liability. The net pension liability of each of the Plans is measured as of June 30, 2017, and the total pension liability for each Plan used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2016 rolled forward to June 30, 2017 using standard update procedures. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plans relative to the projected contributions of all participating employers, actuarially determined. The District's proportionate share of the net pension liability for each Plan as of June 30, 2016 and 2017 was as follows:

	<u>CalSTRS</u>	<u>CalPERS</u>

Net differences between projected and actual earnings on plan investments	83,738	(237,473)
Total	\$ 710,549	\$ (340,853)

The \$225,854 reported as deferred outflows of resources related to contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2019. Other amounts reported as deferred inflows and outflows of resources related to pensions will be recognized as pension expense as follows:

NOTE 6. POSTEMPLOYMENT BENEFIT PLAN (Continued)

D. Contribution Information

Employees are not required to contribute to the plan. If the plan were a pre-funded plan, in order to fully fund the plan, the District would be required to contribute an amount actuarially determined in accordance with the parameters of GASB Statement 75. The Actuarially Determined Contribution (ADC) represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. Because the plan is not pre-funded, and covers postemployment benefits for limited employees, the ADC amounts used to calculate the total OPEB liability are derived from the future payment schedule, based on current health care costs and projected health care inflation rates for that participant.

The contribution requirements of plan members and the District are established and may be amended by the District, the District's bargaining units and unrepresented groups. The required contribution is based on projected pay-as-you-go financing requirements, with an additional amount to prefund benefits as determined annually through agreements between the District, the District's bargaining units and unrepresented groups. For the year ended June 30, 2018, the District contributed \$49,656 to the plan, consisting entirely of current premiums.

E. Net OPEB Liability

The District's total OPEB liability (TOL) of \$254,796 was measured as of June 30, 2018, in accordance with GASB Statement 75, based on Entry Age Actuarial Cost Method. The District's TOL has been determined by an Actuarial evaluation administered by Total Compensation Systems, Inc as suggested under GASB 75 guidelines. Under GASB 75 reporting requirements, the previous OPEB Obligation must be restated to report the total OPEB liability. Therefore, the OPEB liability has been restated using a blended "roll-back" method, based on the previous actuarial evaluation report of future actuarially determined contribution amounts, and the GABS 75 OPEB liability calculation and reporting guidelines.

F. Investments / Assets / Rate of Return

The Plan is a single-employer unfunded defined benefit plan, and there are no plan assets because the plan is not pre-funded. There are no investments to pre-fund the future OPEB liability, costs are paid at the time they are due, on a “pay-as-you-go” basis. Because there are no investments, there is no Rate of Return on Investments. Therefore, for fiscal year ended June 30, 2018, there are no investments, assets, or rate of return to report relating to OPEB liability, and the Net Fiduciary Position was \$0.

G. Changes in the Net OPEB Liability

In order to determine the beginning Net OPEB Liability, Actuarial used a "roll-back" technique. The following table shows the results of the roll-back. Bonny Doon Union Elementary School District restated its June 30, 2017 Net OPEB Liability accordingly.

The changes in the net OPEB liability of the District at June 30, 2018 are as follows:

	Increase (Decrease)		
	Total OPEB Liability	Plan Fiduciary Net Position	Net OPEB Liability (Asset)
"Roll back" balance at June 30, 2017	\$ 265,347	\$ -	\$ 265,347
Changes recognized for the measurement period:			
Service Cost	29,422	-	29,422
Interest on Total OPEB Liability	9,683	-	9,683
Employer Contributions	-	49,656	(49,656)

Balance June 30, 2018	\$ 254,796	\$ -	\$ 254,796

H. Sensitivity of the Net OPEB Liability to Changes in the Discount Rate

The following presents the net OPEB liability of the District if it were calculated using discount rates that are one percentage point lower or one percentage point higher than the current rate, for measurement period ended June 30, 2018:

	1% Decrease 2.80%	Current Discount Rate 3.80%	1% Increase 4.80%
Net OPEB Liability	\$ 247,662	\$ 245,114	\$ 267,026

I. Sensitivity of the Net OPEB Liability to Changes in the Health Care Cost Trend Rates

	1% Decrease 3.00%	Current Trend Rate 4.00%	1% Increase 5.00%
Net OPEB Liability	\$ 247,152	\$ 254,796	\$ 267,536

Unrestricted	134,295	(50,648)	83,647
Totals	<u>\$ 1,935,638</u>	<u>\$ (50,648)</u>	<u>\$ 1,884,990</u>

NOTE 9. GENERAL LONG-TERM DEBT – SCHEDULE OF CHANGES

A schedule of changes in long-term debt for the year ended June 30, 2018 is shown below:

	Balance July 1, 2017	Additions	Reductions	Balance June 30, 2018	Due within One Year
Net Pension Liability	\$ 1,509,134	\$ 319,381	\$ -	\$ 1,828,515	\$ -
Net OPEB Liability	265,347	-	10,551	254,796	-
Totals	<u>\$ 1,774,481</u>	<u>\$ 319,381</u>	<u>\$ 10,551</u>	<u>\$ 2,083,311</u>	<u>\$ -</u>

The June 30, 2017 net OPEB liability, and early retirement program have been restated.

The net pension liability is liquidated from the funds for which the related employees are compensated. Other postemployment benefit premiums are paid from the General Fund.

NOTE 10. RESTRICTED NET POSITION

The government-wide statement of net position reports \$219,057 of restricted net position, of which none is restricted by enabling legislation.

NOTE 11. STUDENT ORGANIZATIONS

The District is responsible for student body funds accumulated and expended by the District's Associated Student Body (ASB). A stand-alone accounting system, capable of reporting both the individual club balances and activities as well as the aggregate total of all student body funds, is maintained at the schools and monitored by the District's business office.

The District has determined that the ASB fund meets the criteria to be classified as a special revenue fund and it is therefore included in the basic financial statements as an element of other governmental funds.

NOTE 12. JOINT POWERS AGREEMENTS

The District is exposed to various risk of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees and natural disasters. During the fiscal year ending June 30, 2018, the District participated in several joint powers agreements (JPAs) to manage these risks. There were no significant reductions in coverage during the year. Settled claims have not exceeded coverage in any of the past three years.

The various JPAs and the services they provide the District are as follows:

- The Southern Peninsula Region Property and Liability Insurance Group (SPRIG) arranges for and provides property and liability insurance coverage for its member agencies.
- The Santa Cruz - San Benito County Schools Insurance Group (SC-SBCSIG) is an insurance purchasing pool, the intent of which is to achieve the benefits of a reduced premium for the member agencies by virtue of its grouping and representation with other participants in the SC-SBCSIG. The workers' compensation experience of the participating districts is calculated as one experience and a common premium rate is applied to all districts in the SC-SBCSIG. Each participant pays its workers' compensation premium based on its individual rate. Total savings are then calculated, and each participant's individual performance is compared to the overall savings. A participant will then either receive money from or be required to contribute to the "equity-pooling fund." This "equity-pooling fund" arrangement insures that each participant shares equally in the overall performance of the SC-SBCSIG.
- Self-Insured Schools of California (SISC) - SISC III arranges for and provides medical insurance coverage for its member school districts.
- The Santa Cruz County School Health Insurance Group (HIG) arranges for and provides dental and vision insurance coverage for its member school districts.

The District also participated in one JPA for other administrative and program operations as follows:

- The North Santa Cruz County Special Education Local Plan Area arranges for and provides special education services for students of member school districts.

The relationship between the District and the JPAs is such that the JPAs are not component units of the District for financial reporting purposes. The JPAs are governed by boards consisting of representatives from the member agencies. The boards control the operations of the JPAs, including selection of management and approval of operating budgets, independent of any influence by the member agencies beyond their representation on the board. Each member district pays premiums commensurate with the level of coverage or service requested, and shares surpluses and deficits proportionate to its participation in the JPA. Separately issued financial statements can be requested from each JPA.

NOTE 13. STATE TEACHERS' RETIREMENT SYSTEM EARLY RETIREMENT INCENTIVE PROGRAM

The District did not enter into any early retirement incentive agreements during 2017/2018, pursuant to California Education Code, Sections 22714 and 44929, whereby the service credit to eligible employees is increased by two years.

NOTE 14. COMMITMENTS AND CONTINGENCIES

A. Grants

The District received financial assistance from federal and state agencies in the form of grants. The disbursement of funds received under these programs generally require compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the District at June 30, 2018.

B. Litigation

As of June 30, 2018 the District is not currently involved in any litigation.

C. Commitments

As of June 30, 2018 the District had no material commitments outstanding.

NOTE 15. SUBSEQUENT EVENTS

Events that occur after the balance sheet date but before the financial statements were available to be issued must be evaluated for recognition or disclosure. The effects of subsequent events that provide evidence about conditions that existed at the balance sheet date are recognized in the accompanying financial statements. Subsequent events which provide evidence about conditions that existed after the balance sheet date, require disclosure in the accompanying notes. Management evaluated the activity of the District through January 25, 2019 and concluded that no subsequent events have occurred that would require recognition in the financial statements or disclosure in the notes to the financial statements.

BONNY DOON UNION ELEMENTARY SCHOOL DISTRICT
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
FOR THE YEAR ENDED JUNE 30, 2018

NOTE 1. PURPOSE OF REQUIRED SUPPLEMENTARY INFORMATION

A. Budgetary Comparison Schedule

Budgetary comparison schedules are required to be presented for the General Fund and each major special revenue fund that has a legally adopted budget. The originally adopted and final revised budgets are presented for such funds. The District employs budget control by object codes and by individual appropriation accounts. Budgets are prepared on the modified accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America as prescribed by Governmental Accounting Standards Board. The budgets are revised during the year by the Board of Trustees to provide for revised priorities. Expenditures cannot legally exceed appropriations by major object code.

B. Schedule of the District's Proportionate Share of the Net Pension Liability

The Schedule of the District's Share of the Net Pension Liability presents multi-year trend information which compares, over time, the District's proportionate share of the net pension liability as a percent of covered-employee payroll. This Schedule is intended to show information for 10 years. Additional years will be displayed as they become available. The amounts presented for each fiscal year were determined as of the measurement date of June 30 of the year prior to the fiscal year presented.

1. Changes in Benefits Terms:

a. California State Teachers' Retirement System (CalSTRS)

Effective January 1, 2013, Chapter 296, Statutes of 2012 (AB 340-Furutani), was enacted in 2012. The law, known as the California Public Employees' Pension Reform Act (PEPRA) of 2013, reduces retirement benefits for educators who were hired after 2012. Specifically, for members subject to PEPRA (CalSTRS 2% at 62 members). Significant changes to the law compared to the CalSTRS 2% at 60 benefit formula include rising the normal retirement age from 60 to 62, reducing benefit factors at all ages less than age 65, final compensation is now based on a 36-month period, the definition of credible compensation is reduced, and places a limit on creditable compensation to 120 percent of the Social Security wage base annually adjusted for changes in the Consumer Price Index.

b. California Public Employees' Retirement System (CalPERS)

Public agencies can make changes to their plan provisions, and such changes occur on an ongoing basis. A summary of the plan provisions that were used for a specific plan can be found in the plan's annual valuation report.

BONNY DOON UNION ELEMENTARY SCHOOL DISTRICT
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
FOR THE YEAR ENDED JUNE 30, 2018

NOTE 1. PURPOSE OF REQUIRED SUPPLEMENTARY INFORMATION (Continued)

2. Changes in Assumptions:

a. CalSTRS

The total pension liability for the STRP was determined by applying update procedures to a financial reporting actuarial valuation as of June 30, 2016, and rolling forward the total pension liability to June 30, 2017. There were no changes in major assumptions.

b. CalPERS

In Fiscal Year 2016-17, the financial reporting discount rate for the PERF B was lowered from 7.65 percent to 7.15 percent. In December 2016, the CalPERS Board approved lowering the funding discount rate used in the PERF B from 7.50 percent to 7.00 percent, which is to be phased-in over a three-year period (7.50 percent to 7.375 percent, 7.375 percent to 7.25 percent, and 7.25 percent to 7.00 percent) beginning with the June 30, 2017, valuation reports. The funding discount rate includes a 15 basis-point reduction for administrative expenses, and the remaining decrease is consistent with the change in the financial reporting discount rate.

C. Schedule of the District's Plan Contributions

The Schedule of the District's Plan Contributions presents multi-year trend information which compares, over time, required contributions and actual contributions as a percent of covered-employee payroll. This Schedule is intended to show information for 10 years. Additional years will be displayed as they become available. The amounts presented for each fiscal year were determined as of the measurement date of June 30 of the year prior to the fiscal year presented, as the current year information from the plan was not available. The excess or deficiency of contributions in relation to the actuarially determined contributions has not been recorded as deferred inflows or outflows as they have been determined immaterial.

D. Schedule of Changes in the Net OPEB Liability and Related Ratios

This schedule presents information on the District's changes in the net OPEB liability, including beginning and ending balances, the Plan's fiduciary net position, and the net OPEB liability.

1. Change in Benefit Terms:

There were no changes of benefit terms that impact the valuation.

BONNY DOON UNION ELEMENTARY SCHOOL DISTRICT
 NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
 FOR THE YEAR ENDED JUNE 30, 2018

NOTE 1. PURPOSE OF REQUIRED SUPPLEMENTARY INFORMATION (Continued)

2. Changes in assumptions

The changes in assumptions occurred due to many assumptions changing such as a re-evaluation of the discount rate using current GASB Statement No. 74 and No. 75 standards, updated trend schedules, and actuarial cost methods. The remainder of the changes are due to accrual of benefits and the passage of time. The methods and assumptions used to determine future benefit payments are as follows:

Actuarial Assumptions

Actuarial Cost Method	Entry Age Actuarial Cost Method
Amortization Method/Period	Level percent of payroll over a closed rolling 15-year period
Asset Valuation Method	Market Value
Inflation	2.75%
Payroll Growth	2.75%

Historical information is required only for measurement periods for which GASB 75 is applicable. Future years' information will be displayed up to 10 years as information becomes available.

E. Schedule of Contributions - OPEB

An actuary did not calculate an actuarially determined contribution amount, the District opted to use the Actuarially Determined Contribution (ADC) to calculate the ADC. This schedule presents information on the District's ADC, contributions in relation to the ADC, and any excess or deficiency related to the actuarially determined contribution.

The following are the future projected ADC benefit payment schedule, using the Actuarially Determined Contribution:

Projected Future Benefit Payments for the Year Ending June 30:	Certificated	Classified	Total

This schedule discloses the District's financial trends by displaying past years' data along with current year budget information. These financial trends are used to evaluate the District's ability to continue as a going concern for a reasonable period of time.

The General Fund balance has increased by \$86,958 over the past two years. The District has incurred an operating deficit in one of the past three years. The 2018/2019 General Fund budget projects a decrease of \$105,510 (-5.3%).

For a District of this size, the state recommends available reserves of at least 5% of total General Fund expenditures, transfers out, and other uses (other outgo).

Total long-term debt has increased by \$609,111 over the past two years.

Average daily attendance has decreased by 9 ADA over the past two years. The ADA is anticipated to remain stable during the fiscal year 2018/2019.

* The 2018/2019 budget is included for analytical purposes only and has not been subjected to audit.

¹ Available reserves consists of all unassigned fund balances and reserves for economic uncertainty that are contained within the governmental funds. Unassigned fund balances are typically only reported in the General Fund. However, other governmental funds may report negative unassigned fund balances and are included in the reported available reserves.

² Total long-term debt for the year ending June 30, 2017 has been restated.

BONNY DOON UNION ELEMENTARY SCHOOL DISTRICT
NOTES TO SUPPLEMENTARY INFORMATION
FOR THE YEAR ENDED JUNE 30, 2018

NOTE 1. PURPOSE OF SUPPLEMENTARY INFORMATION

A. Other Governmental Funds Financial Statements

These statements provide information on the Bonny Doon Union Elementary School District's (District) Governmental non-major funds, by object.

B. Schedule of Average Daily Attendance

Average daily attendance is a measurement of the number of pupils attending classes of the District. The purpose of attendance accounting from a fiscal standpoint is to provide the basis on which apportionments of state funds are made to the District. This schedule provides information regarding the attendance of students at various grade levels and in different programs.

C. Schedule of Instructional Time

This schedule presents information on the amount of instructional time and number of days offered by the District and each applicable charter school and whether the District complied with the provisions of Education Code Sections 46201 through 46208 and also whether the Charter School(s) complied with the provisions of Education Code Sections 47612 and 47612.5. The District has received incentive funding for increasing instructional time as provided by the Incentives for Longer Instructional Day and has met its local control funding formula target.

D. Schedule of Financial Trends and Analysis

This schedule discloses the District's financial trends by displaying past years' data along with current year budget information. These financial trend disclosures are used to evaluate the District's ability to continue as a going concern for a reasonable period of time.

E. Reconciliation of Annual Financial and Budget Report (SACS) with Audited Financial Statements

This schedule provides the information necessary to reconcile the fund balances of all funds reported on the Unaudited Actual Financial Report to the audited financial statements.

F. Schedule of Charter School

This schedule represents a complete listing of all charter schools authorized by the District and indicates whether their financial activities and balances have been included in the District's annual audited financial statements for the year ended June 30, 2018.

OTHER INDEPENDENT AUDITOR'S REPORTS

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

INDEPENDENT AUDITOR'S REPORT

Board of Trustees
Bonny Doon Union Elementary School District
Santa Cruz, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Bonny Doon Union Elementary School District (District), as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated January 25, 2019.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON STATE COMPLIANCE

Board of Trustees
Bonny Doon Union Elementary School District
Santa Cruz, California

Compliance

We have audited Bonny Doon Union Elementary School District (District)'s compliance with the types of compliance requirements described in the *2017-18 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*, that could have a material effect on each of the District's state programs for the year ended June 30, 2018.

Management's Responsibility

Compliance with the applicable compliance requirements is the responsibility of the District's management.

Auditor's Responsibility

Our responsibility is to express an opinion on the District's compliance with the applicable compliance requirements based on our compliance audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and *2017-18 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct material effect on the programs identified in the below schedule occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the District's compliance with those requirements.

In connection with the compliance audit referred to above, we selected and tested transactions and records to determine the District's compliance with the State laws and regulations applicable to the following items:

Description	Procedures Performed
Local Education Agencies Other Than Charter Schools:	
Attendance	Yes
Teacher Certification and Misassignments	Yes
Kindergarten Continuance	Yes

The term "Not Applicable" used above is to mean either the District did not offer the program during the current fiscal year or the program applies to a different type of local education agency.

We did not perform testing for Ratios of Administrative Employees to Teachers because the District has one or fewer administrators.

Opinion on State Programs

In our opinion, the Bonny Doon Union Elementary School District complied, in all material respects, with the compliance requirements referred to above for the year ended June 30, 2018.
